

FURTHER QUESTIONS OF CLARIFICATION

Mr Withrington on behalf of Mrs Harris

for Mr Eyles

- 1) In the cost benefit table, to what does “Revenue” refer. Is it the fares taken by Chiltern as a result of this scheme or is that revenue minus the revenue lost to other rail services.
- 2) The benefits in Table 4.1 are the differences between do minimum user costs and do something user costs. Can Mr Eyles provide the do-minimum or do something values
- 3) Reference the “pixel” diagram in Mr Eyles appendix, please confirm that it is only the pixels falling within the blue dotted lines that would be attracted to to Water Eaton

For Chiltern generally

Is there a statement as to the number of carriages per train
