

NOTE ON POSITION OF FENCE ON LAND PARCEL 29002

Transport and Works Act 1992

Transport and Works (Applications and Objections Procedure) (England and Wales)

Rules 2006

1. On Thursday 16th December 2010, Mr Salisbury (OBJ005) asked Mr Barker whether or not the position of the metal fencing running along the eastern side of the informal parking area used by people accessing the Trap Grounds Allotments coincided with the eastern boundary of land parcel 29002 (shown on the Deposited Plans (CD/1.9) and on the plan appended to CRCL/R/OBJ5/1).
2. Having reviewed aerial photography of the parking area on which the fence is visible (reproduced in Figure 1 below), I can confirm that the fence is not coincident with boundary of 29002. This is demonstrated by the fact that the fence follows a curved alignment at the southern end of the parking area whereas the boundary of parcel 29002 (shown in the drawing extract reproduced in Figure 2 below) is straight throughout its length.

Figure 1: Aerial photograph of informal parking area adjacent to Aristotle Lane level crossing.

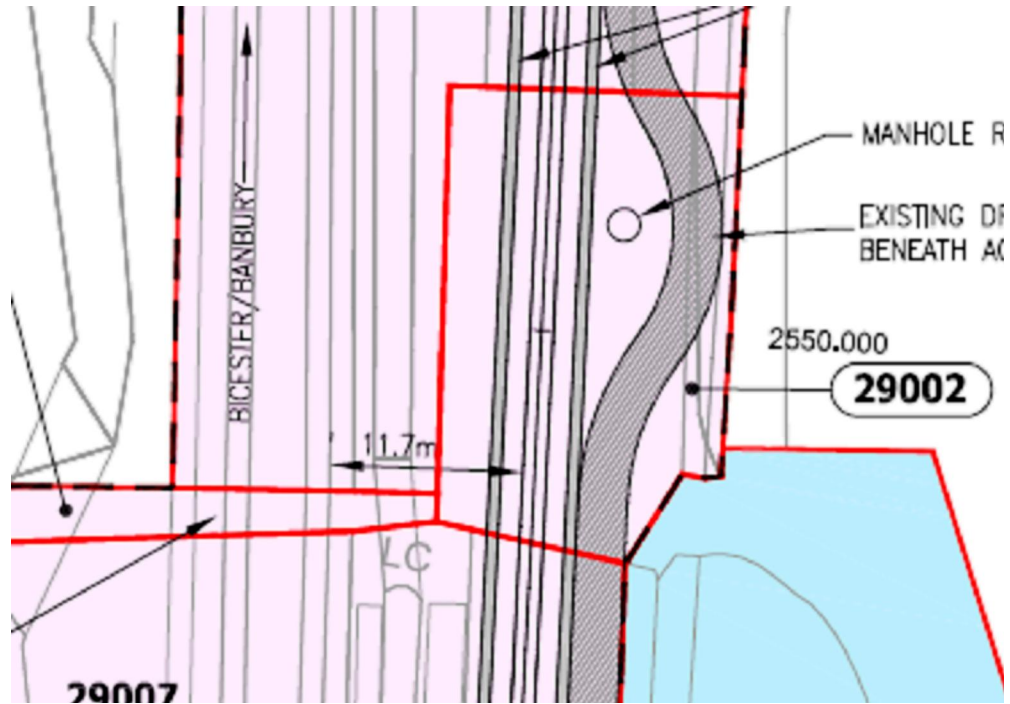

Figure 2 : Extract from drawing appended to CRCL/R/OBJ5/1

Stephen Barker
